Scots Will Honor the Immortal Memory

Burns Anniversary Observance in
Coleman Next Wednesday Night
Arouses Widespread
Interest

Scots the world over will observe the Burns' anniversary next Wednesday night, and Coleman stalwarts from the land of the heather will hold up their end in keeping green the memory of the immortal bard.

Consequently they have arranged a program and dance in the K. of P. hall, commencing at 8 p. m., and invite all Scots or near Scots and everybody else to come and join with them in this noteworthy occasion. Piper Neil Fleming will head the gay party in the bringing in of the Haggis, without which celebration of this kind would be complete, and following the program refreshments will be served and the evening will conclude with a dance.

The Ladies of the Catholic Church will hold a whist drive in Catholic school, Monday, Jan. 23, at 8 p. m. Everybody welcome.

Goes to Vancouver

J. D. S. Barrett, who was some years ago associated with Ernest F. Gare in the Coleman Journal office, and who for two years has been editor and proprietor of the Morse (Sask.) News, has sold his business there and gone to live in Vancouver. The last issue of the Morse News, now edited by a former Vancouver newspaperman, G. W. Armstrong, contains a report of a farewell banquet tendered Mr. Barrett by the local board of trade. Tributes of appreciation were expressed by the town improvement club, the curling club, the board of trade and other organizations.

Special Service

Next Sunday evening's service at the United church is being specially arranged in the interests of the young people. The sermon will be based upon a study of John Ruskin's work—"The Seven Lamps of Architecture." The Tuxis and Trail Ranger groups and the two senior groups of girls are expected to be present at this service and an invitation is extended to all young people interested and the public generally. Seven o'clock is the hour of the service.

Citizens Discuss Light and Water Systems

No Policy Decided on as to Town
Purchasing System of
Company

About forty ratepayers were present last evening in the K. of P. hall when the findings of the Board of Public Utility Commissioners for the Province of Alberta on the application of Coleman Light & Water Co. Ltd. for an increase in the rates chargeable for light and water in the town of Coleman, were discussed.

As full details of the Commissioners' report had been circulated in pamphlet form, the committee of the town council, Mayor Burns and Councillor J. Moore, before the meeting the meeting the claims of Coleman Light & Water Co. for the increase, and the rebuttal of the council stating why such increases should not be sanctioned. The company claims a deficit of over \$7,000.00 in operation, and based their application on the ground that the rate should be increased to cover this deficit. In rebuttal the town's representatives claim that if the water system was improved by the laying of new pipes, much wastage of water would be avoided and there would not be the need for such a heavy volume of electrical current for pumping purposes, and that labor charges for repairs and pumping would be considerably reduced, effecting a reduction in operating expenses and overhead costs of approximately \$4,000 annually, as estimated by the committee who have gone into the matter.

The company during the course of the hearing also intimated that it would be willing to sell its entire system to the town, provided the purchase covered all liabilities, and returned to the investors the principal invested with interest at 5 1/2 per cent., the rate agreed on when the franchise was granted to the company.

This amount the town's representatives consider too high, and the Utility Commissioners advocate in their findings that an amount approximating \$10,000 be deducted from the capitalization of the system. The council and the ratepayers realize that the company has furnished a service during a time when under provincial laws it could not have borrowed sufficient money to purchase or install a water and light system, but now that the town is assessing improvements, it can obtain permission from the Utilities Board to borrow up to 20 per cent of its total assessment, which at present is stated to be \$750,000, (aside from schools assessment) so that \$150,000 could be raised by debenture issue.

The committee was asked by a ratepayer at the meeting if it had formulated any policy as to further action with a view to purchasing the system from the company, to which Mayor Burns replied that it had not, and the object of the meeting was to place before the citizens the facts and obtain an expression of public opinion. He regretted that the meeting was not fully representative and therefore did not consider it advisable to ask for any action at this meeting.

It was suggested that a further meeting be called and in the meantime the council would confer as to the policy to be followed. Under the terms of the franchise the company was to furnish the town with a balance sheet every six months, but in reply to an enquiry he stated they had not received a balance sheet since June, 1926, though the

Shamrocks to Play at Banff Carnival

Ladies Hockey Team Will Be
Strongest Agregation That
Coleman Has Had

Great credit is due to the executive of the Shamrocks Hockey Club in their efforts to have Coleman represented at the Banff Winter Carnival from Feb. 4 to 11, and their supporters are confident that they will make a very strong opposition against the six other clubs entered for this great winter event.

The ladies team entered are Vancouver, Victoria, Cranbrook, Canmore, Calgary, Edmonton and Coleman. The Shamrocks it is expected will leave here on Feb. 2 in order that they may have a day's rest before starting in the games. The trophy for which they will compete is the Banff Carnival Cup, and Mrs. W. S. Purvis, of the executive, who will accompany the girls, states that they are going up with the determination to bring it back to Coleman.

The final line-up has not yet been decided on, and will be published next week. Charla Graham has been acting as manager of the team.

The executive wish to thank Mr. Geo. Pattinson for donating the sticks to the club, which has lessened their expenses for which the club is grateful. Arrangements have been completed for the accommodation of the girls at Banff, and they are looking forward to a very enjoyable week at this great winter carnival, which it is expected will draw a large number of people.

I. O. O. F. Installation

On Monday evening the officers of Coleman Lodge, No. 35, I. O. O. F. were installed into their respective offices by W. J. Burns, D. G. M., for District No. 6. After the installation ceremony dainty refreshments were served by the brothers which was heartily enjoyed by all, and the remainder of the evening was spent in dancing. Oddfellows and Rebekahs and their families taking part. There were visiting Oddfellows and Rebekahs from Blairmore, Cowley and Pincher Creek.

The officers for 1928 are as follows:
N. G. - Brother R. Vincent
P. G. - " E. Neilson
V. G. - " J. VanMarston
Sec. - " H. Vincent
F. Sec. - " J. DeAndre
Treas. - Bro. G. Greenhalgh P. G.
Ward. - Brother C. Grant
Com. - " G. Ford
R. S. N. G. - Bro. W. J. Burns P. G.
L. S. N. G. - Brother H. Boulton
R. S. V. G. - " H. Olsson P. G.
L. S. V. G. - " J. Rogers
L. G. - W. Higgins W. O. O.
" J. Tolmie
Chaplain - " E. Beattie P. G.

company had stated that if the council wish to send in an auditor they could secure the information desired. This the council had been reluctant to do owing to the expense involved, but he (Mayor Burns) felt that this statement should be furnished without expense to the town.

Appreciation was expressed by the meeting for the work carried out by the committee in the matter of the appeal, but no vote was taken as to further action, this being left with the council to further consider and in due time to advise the ratepayers.

Councillor G. Pattinson was chairman and James Ford secretary.

L.O.B.A. Installation

The following officers were installed in Crescent Lodge, No. 699, L. O. B. A. for the ensuing year:
W. M. - " H. E. Gate
D. M. - " D. Falton
Rec. Sec. - Mrs. M. MacKinnon
Fin. Sec. - " E. Holmes
Treas. - " E. Dunlop
1st Lect. - " M. Short

D. of Cer. - " M. Ferguson
2nd Lect. - " C. Dickson
I. G. - " R. Thon
O. G. - " Miss E. Daniel
Inst. Committee - " M. McKinnon
Councilman - " Mrs. J. Wilson
Pianist - " J. Burns
The installation officer was Mrs. J. Wilson P. W. M. Following the installation lunch was served.
Be at the risk to night at 7.30.

Grain Crops In 1928

The prediction has been made from many sources, and with but few reservations, if any, that the year 1928 gives promise of being one of the greatest years of development in Canada's history, marked by unprecedented activity in mining, manufacturing, building, water-power development, transportation, and a rising tide of immigration. Authorities in banking and finance are a unit in declaring that Canada is now in a position to take a giant step forward, and that apart from the financial ability and resources of Canada itself, both British and United States money will be available for sound development enterprises.

What of agriculture, the basic industry of Western Canada, and upon the prosperity of which much of the growth and prosperity of all Canadian industry depends?

It is generally recognized that agriculture occupies a stronger position today than it did a few years ago and that conditions have been steadily improving year by year. There is a feeling of hopefulness abroad that this situation will continue. But if 1928 is to prove a successful year for our Western farmers they must themselves take time by the forelock and lay the foundations of that success. It is now when the snow is on the ground and the temperature hovers around the zero point that the first step towards assuring good crops in the fall of the year must be taken.

If seed sowing is done, and especially for farmers, will look anxiously for adequate rainfalls at the right season, for bright sunny days, for an absence of frosts, rust, and other blighting agencies, and for good weather for harvest and threshing. But a combination of all these favorable conditions will not in themselves assure the West a bumper crop. Something more is required, and now is the time to provide it. The conditions noted above are not within the power of man to determine, but, fortunately, it is in his power absolutely to provide the first essential requirement, namely, good clean seed possessing a maximum of germinating qualities.

Unless the best of clean seed is sown, the best and cleanest crops cannot be obtained. If seed sown is poor, weeds and other noxious plants will out of the grain will result. This fact is so obvious that it would seem quite unnecessary to lay any stress upon it. But what is the situation?

All Western farmers can profit from the lessons learned from a seed drill survey conducted by the Saskatchewan Department of Agriculture last year. In 25 townships across the province, from the seed drills of the farmers and tested as to grade. Out of each ten samples submitted in wheat three graded No. 1 or No. 2, four graded No. 3, and three graded rejected.

The cats being seed did not make as good a showing, 16 per cent. graded No. 1 or No. 2, 16 per cent. graded No. 3, and 68 per cent. rejected. As in the case of wheat, the cat reject was caused chiefly by the presence of noxious weeds. In other words, only three out of every ten farmers were sowing good, clean seed wheat, and only 16 out of every 100 farmers were sowing good, clean seed oats. Under such conditions, how can Western farmers expect to obtain large yields and a highly profitable return from their labor?

Ninety-seven per cent. of the farmers in these townships were using cleaning machinery of some kind, while 92 per cent. were using one of another of the recognized methods of treating grain for smut. It was established that the success, or non-success, in the operation of seed cleaning machines did not lie so much in the make of the machine used as it did in the man operating it. In other words, only three out of every ten farmers were sowing good, clean seed wheat, and only 16 out of every 100 farmers were sowing good, clean seed oats. Under such conditions, how can Western farmers expect to obtain large yields and a highly profitable return from their labor?

Good, clean seed will not in itself assure a heavy and profitable crop—there are many other factors involved—but unless good, clean seed is sown it is certain that such a crop cannot be harvested. It is necessary to begin at the beginning, and the seed sown is the beginning, whether it be of a crop of hard wheat or noxious weeds.

What "Toc H" Means

Stands For Talbot House Which Commemorates Heroes Of Flanders Fields

Probably nothing in the way of phrases is more widely known, and yet so little understood as "Toc H." A reader asks me to elucidate the mystery. It is described in one of its own publications as "Merely an affectionate diminutive the signaller's trick for saying 'T.H.' amid the noise

of war." It stands for Talbot House, a memorial "house that love built" at Poperinghe, near Ypres, just 12 years ago, and commemorates young Gilbert Talbot, son of the fifth baronet of the name, who was killed in the trenches of the battle of the Somme, and all the flower of manhood of Allied camp who fell in Flanders Fields. The lamp of remembrance in "Toc H. Chapel"—All Hailows-by-the-Tower—is to be kept alight for all time to effect moral regeneration of the whole world.

Britain's Merchant Marine

Empire Owns Half Of Existing Tonnage Of World

No nation suffered as sea as we did during the war. Our merchant marine was always in the front of the fight on all the world's oceans, and its losses were correspondingly severe. It almost looked for a time as though the casualties it met with would force us to relinquish for whole generations our pre-eminence as the chief carriers of the world's trade. Yet less than ten years after the close of the war we won half the existing tonnage, and we are building over three-fifths of the new vessels.

Making It Knowledge

A bald-headed man in Kansas who believes in realism has two wigs, one with somewhat shorter hair than the other, which he substitutes about every ten days to make it appear he has just been to the barber.

A simple electric alarm that tells when the door to which it is attached swings open, is a French invention.

Minard's Liniment for sore throats.

Submitted Best Design

Woman Is Architect For New Shakespeare Memorial Theatre
A young English woman of 29, has been named architect of the new Shakespeare Memorial Theatre at Stratford-on-Avon. The design of Elizabeth Scott, daughter of a Bournemouth doctor, was unanimously selected from the 70 submitted to the Anglo-American selection committee.

Miss Scott comes from a family of architects. Her plans are described as a bold and splendid conception taking full advantage of the beautiful site on the banks of the Avon.

OUR WINTER WEATHER

A Trying Time For People With Weak Watery Blood

Canadian winter weather is a trying time for debilitated, run-down people. The climate, with its cold houses, lack of out-door exercise, the restricted diet of the season, all have a direct effect on the blood. There is always in such cases the danger of severe colds, attacks of influenza, or the still more dreaded pneumonia. There is no other time of year, when a bountiful supply of rich, red blood is so necessary, and the one way to keep the blood rich and pure and thus avoid winter trouble is through the use of Dr. Williams' Pink Pills. If, unfortunately, you have fallen a victim to influenza, or other winter trouble, the same medicine will restore your health and strength. Among the many who have proved the value of Dr. Williams' Pink Pills is Miss Margaret Pearson, R.N., N.S. Chatham, N.S. She has passed through a severe attack of influenza and says: "It left me so weak and run-down, I could scarcely walk. Anemia set in and it almost seemed as if I would not pull through the winter at all. I grew weak, the least exertion would bring on fainting spells. It was under medical treatment but it did not help. Then one day in our local paper I read an advertisement of Dr. Williams' Pink Pills. I decided to try them. By the time I had used three boxes I felt much better, and continued use of the pills it was not long before I felt better than I had been before the influenza attack. My rapid recovery surprised my friends, and when asked 'What did you do?' I would proudly say, 'Not any thing, but Dr. Williams' Pink Pills.' To me, at least, the pills have been worth their weight in gold."

As a precaution against winter illness take Dr. Williams' Pink Pills now. Sold by all medicine dealers, or sent by mail at 50c a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Burbank Gardens To Go

California Estate Will Be Cut Up With Building Lots

The experience of the late Lathrop Burbank at Santa Rosa, which for more than twenty years attracted scientists throughout the world, are to be cut up into building lots. Mrs. Burbank, widow of the plant wizard, announced.

Burbank died in April, 1926, and shortly thereafter a move was started to preserve his three acres of gardens and continue his experiments. All plans, however, failed.

About one-quarter of the land will be retained by Mrs. Burbank.

Don't Submit to Asthma. If you have no without loss of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kolker's Remedy. A trial will tell you all you doubt as to its efficacy. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Bays Ghost With Farm

A ghost was sold along with a farm at a recent auction sale at Kettering. It was the ghost of a woman, and she fetched \$3,000—with the farm. She is the White Lady of the Falls of Harrington, whose ghostly career started during the reign of James I. In a fit of passion she killed one of the gardeners with a spade. Contrary to the usual custom among ghosts, it was she, and not her victim, who thereafter haunted the scene of the crime.

New French hydroplane, a practically wingless airplane type of glider which just skims the water surface, given good conditions, could cross the Atlantic in two days.

Her Color Went Black. She Was Frightened To Death

Mrs. Wille, New Brighton, writes: "That deadly indigestion and constipation caused by constipation made my color black. I felt frightened to death and I feel your laxative saved my life. I take them every night now for prevention, and do not dread the attack of constipation poisoning any more."

New York's Women Workers

Are Making Good In Lines Requiring Hard Manual Labor

One out of every three girls and women in the city of New York, over fourteen years of age, is engaged in gainful occupation, according to the reports of the United States Bureau of Census. The ratio of men working for salary or wages as compared to women so employed is considerably less than three to one. New York is truly a city of real opportunity for the members of the "weaker sex," though judging from the work which some women are doing, the term "weaker sex" is a misnomer. There are in the city 691,727 females employed in offices, factories, shops and in almost every branch of work, financial, commercial and professional, which goes to make New York the metropolis of the world. About everything that a man does in the way of work, you will find some woman able and willing to do. In many lines, including those which require hard manual labor, women are giving the men a close run for their wage.

Value Of Crop

Annual Value Of Saskatchewan's Crop Placed At Four Hundred Millions

"In the field crops of Saskatchewan we have two Billions annually," said the Hon. C. M. Hamilton, minister of agriculture in the provincial government, speaking on the topic of agricultural development in the province to the Saskatchewan Kiwanis club. He told of having read in the newspaper that the valuation of the ore in the Yukon Mining area had been placed at \$200,000,000. While he was not attempting to minimize the value of other industries to Saskatchewan, Mr. Hamilton said, few people realize that the cash value of agricultural products in Saskatchewan represented \$400,000,000 annually to the people of the province.

The Family Physician. The good doctor is always worth his fee. But it is not always possible to get a doctor for the cash value of agricultural products in Saskatchewan, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

War Weapons Used To Aid Humanity

Airplanes and Army Tanks Carry Relief To Needy People

Another dream of the novelist has come true. Aeroplanes have been used to transport food to needy people in villages isolated by storms from ordinary communication with the outside world. The aviators were unable to find any landing-place, so the food was placed in bags and dropped by way of parachute. The manifold uses to which the aeroplane can be put in time of peace are increasing in number every day. It ought to be a tremendous satisfaction to those who have striven for years to perfect control of the air that their efforts are being utilized in the cause of humanity.

The past year has afforded many dramatic incidents similar to that recorded from England. The traditional and symbolic leaping of swords into ploughshares is a mere figure of speech compared to the literal and practical use of army tanks to crush a path through roads rendered impassable by snow and thus carry relief to those in need. It would be a great day for the civilized world if all the army aeroplanes and all the army tanks of the Powers could be converted into mail carriers and road rollers.—Montreal Star.

Cat Has Own Method

A remarkable dog is owned by a farmer of Bajarg, Ayrshire. He is a black and white collie and answers to the name of "Laddie." Recently he was witnessed catching a rabbit; but he evidently was sensitive as to the spilling of blood and refused to worry the rabbit to death. Instead of that he hauled his captive to a barn, where he held his head under water till it was drowned. He has never, the farmer says, done other than drown his rabbits.

The first waterproof cloth was made by a Scotch chemist, Charles Macintosh, in 1823.

Biplane Built For Experimental Purposes

New British Machine To Take "Soundings" Of Upper Air

A new biplane, specially designed for attaining high altitudes, is now at the Royal Aircraft Establishment, Farnborough, England. In this machine it is hoped to ascend to a great height and obtain "soundings" of the upper air. One theory to be tested is that, at 10 or 12 miles above the earth there are steady moving currents of air travelling at 200 miles an hour and more. Such upper air tides as these might have a revolutionary influence on long-distance flying. The British machine which is to carry out this test is a Bristol biplane with an air-cooled Jupiter engine specially equipped for maintaining its power in rarified air.

It will probably be piloted by Flight-Lieutenant J. A. Gray, one of the most expert of the Government test pilots. For these high-altitude flights pilots are being provided with special air suits and helmets like those of diving suits, the helmet peering out through small circular windows. In one new plane the aviator will be enclosed in a glass-windowed cabin, which will be automatically supplied with oxygen.

Miller's Worm Powders attack worms in the stomach and intestines, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have tested their power in hundreds of cases and at all times are thoroughly trustworthy.

Five Eclipses This Year

Three Will Be Of Sun, and Two Of Moon

For those whose interests center to some extent in the astronomical world, the new year will satisfy them in that five eclipses are scheduled. Three will be of the sun, and two of the moon, the new year bringing the same number as in 1927. On May 19 there will be a total eclipse of the sun that the powers that be say it will be visible in Canada, June 2 a total eclipse of the moon is forecast which will be visible in some parts of the West. Two weeks later the sun will go into a partial eclipse and on November 12 the performance is repeated. Western Canadians will have to take the word of the scientist for these because they will not be visible in the West. The last eclipse of the year will be on November 27 when the moon will be completely hidden. The eclipse will be visible throughout the North American continent.

The usual legal and national holidays will be on the program for the year with any additional ones the authorities might permit. To round off the twelve months the year 1928 is the 10th year of the reign of King George V, and the 62nd year of Confederation of communities on July 1.

The King Of Fals—Mind's Delinquent

The seven liberal arts, according to educators in the middle ages, were Latin to grammar, dialectic, music, arithmetic, geometry and astronomy.

DEMAND

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacturers, which is well known that Aspirin bears Bayer's trademark. Beware the public against cheap imitations. The tablets will be stamped with the "Bayer Cross" trademark.

ECZEMA IN SMALL PIMPLES

On Hands and Face. Itched and Burned. Cuticura Heals In Six Weeks.

"Eczema broke out in small pimples on my hands and face. The pimples were hard and red, and itched and burned. I could not put my hands in water because it made them worse. I could not help scratching and rubbing the affected parts and causing disfigurement. The trouble lasted three months."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and in about six weeks my skin was completely healed." (Signed) John A. MacDonald, South West Margate, N.S.

Nothing quicker or safer than Cuticura Soap and Ointment for skin troubles that itch and burn. Sample Card Free by Mail. Address: Canadian Manufacturers, "Cuticura," Ltd., Montreal, Que. (In U.S.A., write to "Cuticura," Dept. 500, P.O. Box 999, New York, N.Y.)

MUCH INTEREST IN COMING SESSION OF PARLIAMENT

Ottawa.—Questions which arise out of the recent Dominion provincial conference promise to have considerable predominance in the legislation of the impending session. It is hoped to bring in a bill to meet the views of the western provinces, especially for regulation of the sale of shares and generally to harmonize federal and provincial authority in respect of company incorporation, it was learned here.

Possibly there may be a bill respecting Alberta's resources, that is, if, before the session ends, a final decision is reached in the educational aspects of the autonomy bill. It is thought possible that Alberta may intervene in the case so that it may be taken before the Privy Council. That tribunal has demurred against hearing it because the Dominion Government, in its anxiety to have a final decision once and for all, is really appealing from Court judgment here sustaining its own contention. This is unusual and the matter hangs fire.

Now that, on the lines previously indicated, the St. Lawrence advisory committee has reported, no doubt the Government will develop and announce, for the future, if not the immediate present, a policy in relation to this great national enterprise.

Great interest will attach to the budget whose importance, however, will be appraised in proportion to what it contains. Both in tariff and taxation changes considerable is expected. It is believed the subsidies temporarily given the Maritime Provinces last year will be made permanent.

Other questions now under advisement, which were discussed at the conference, are the provincial revenue for a continuance of the grants in aid of highways and for the promotion of technical education.

In a bill to amend the Parks Act the boundaries of parks in Alberta will be re-defined on the light of a recent survey. From the parks proper certain villages may be excluded, as well as the Pocahontas Valley, where there is coal.

Slayers Pay Penalty

Mrs. Ruth Snyder and Henry Judd Gray Die in Electric Chair
Sing Sing Prison, Ossining, N.Y.—Mrs. Ruth Snyder died in the electric chair muttering biblical quotations, and Henry Judd Gray followed her to death, seven minutes later, his lips moving in prayer but making no audible sound. The State had exacted its penalty for the murder of the woman's husband, March 20 last.

Mrs. Snyder was led sobbing and shaken to the death chamber by two matrons who stayed with her until the end.

As she walked to the electric chair she cried out, "Forgive them, Father, for they know not what they do."

No Announcement

Ottawa.—Premier Mackenzie King declined to make any announcement with respect to the report of the royal advisory committee on St. Lawrence waterways. The Prime Minister stated merely that the report had been received. As the subjects treated in it were matters of international negotiation, it seems likely that no announcement will be forthcoming until Parliament meets.

May Purchase Rifles

London.—The rifles which Canada is reported desirous of buying from the Irish Free State are merely surplus stock which are to be disposed of to help the Free State public funds.

A report in Ottawa was that the rifles had been purchased for the Canadian naval volunteer reserve at a cost of \$7 each, but it is stated at Belfast that the negotiations are not yet concluded.

Urges Huge Naval Expenditure

Washington.—Approval of the administration's \$725,000,000 naval shipbuilding construction program was urged upon congress by high naval officials as necessary to the establishment of a navy strong enough to "protect commerce, preserve our ocean trade routes, and provide adequate national defence."

A Wise Gift

Baltimore, Md.—A gift of \$195,000 to Johns Hopkins University for the study of the "origin, nature and possible cure of the cancer of the colon" has been announced. The gift was made by the Chemical Foundation to the school of public health and hygiene.

W. N. U. 1716

Death Of Noted English Writer Seeking Discipline System For Lawyers

Thomas Hardy, Dean of English Literature, Passes in 74th Year
Dorchester, Eng.—Thomas Hardy, aged dean of English literature, is dead at his home here after a month's illness.

The famous 74-year-old novelist had a child December 12, and thereafter his condition was alternately hopeful and then critical, but as his age imposed heavy odds against recovery.

With Hardy's death one of the greatest of the Victorian, scenes of whose novels of English life were laid in his beloved Wessex where he lived most of his years, passed from the literary world.

Hardy died in surroundings which he, no doubt, would have chosen for his end. The historic country side of his home was to him the most loved spot. More than 40 years ago the novelist planned and built a fine red brick and stone country house which has been his home and sanatorium ever since. It was in this home that he produced some of the greatest literature of modern times.

Involves Big Revenue

Validity Of Alberta Coal Tax Is To Be Tested

Edmonton.—The validity of the provincial coal tax, which represents revenue of some \$300,000 annually to the provincial treasury, is to be tested before the Supreme Court of Canada at the forthcoming Easter sitting, it was announced recently, and the Province is "ready" to go ahead with the case.

The case against the original defendants, the Caledonian Collieries, Limited, is to be proceeded with, in place of pushing the more recent action in which the C.P.R. was cited as defendant.

The question is one of the right of the province to collect a tax on every ton of coal mined in the province and the decision hinges on whether or not such tax is a direct or an indirect one. If it is held to be a direct tax, then the province has the power to enforce collection; if the reverse, the province loses \$300,000 per annum.

Irish President Is Coming To America

Visit Is Purely One Of Courtesy Says Cosgrave

Southampton.—President William T. Cosgrave, of the Irish Free State, and his party, sailed for a visit to Canada and the United States aboard the steamship Homeric.

The president plans to spend about 10 days in North America, including a side trip into Canada. The visit has been described in Dublin as purely one of courtesy.

"This is a visit that we have looked forward to for a number of years," President Cosgrave said just before sailing. "I firmly believe that the visit will make still happier the relations between Ireland and America."

Leads World In Shipbuilding

British Yards Doing More Than Half Says Lloyd's

New York.—More than half the world's shipbuilding is being carried on in British yards, according to facts disclosed by Lloyd's Register of shipping.

Ships now under construction in all yards amount to a tonnage of 3,118,000, an increase of 41,000 tons over the preceding quarter year. Of this amount, Great Britain has 1,579,713 tons. The United States, with 87,270 tons, dropped from fourth to eighth place during the quarter and is eclipsed by Germany, Italy, Holland, France, Sweden and Denmark, as well as by Great Britain.

New Senators Appointed

Ottawa.—Three Senatorial appointments in Ontario were announced by Premier Mackenzie King: J. H. Spence, K.C., of Toronto; R. S. Little, London, Ont.; and Dr. Guastave LaCasse, of Tecumseh, are appointed to the Senate. T. Ahera, Ottawa, becomes a member of the privy council, the prime minister announced.

Carried First Air Mail

Moncton, N.B.—After numerous delays since the first date in December, the Canadian Transcontinental Airways company aeroplane, carrying the first air mail to the Magdalen Islands, hoped of from Moncton, Jan. 21. E. J. Cooper, veteran British flyer, was the pilot and he took some 700 pounds of mail.

Iran Moral Film

Victoria.—Attorney-General Macdonald has taken steps through the board of censors to prevent display in motion picture houses of British Columbia pictures of the Los Angeles Marian Parker murder case.

A Distinguished Visitor

Sir James Alkins Giving Whole Time To Question

Toronto.—The problem of a Dominion-wide system of legal profession became of immediate interest to Ontario with the arrival in the city of Sir James Alkins, a former lieutenant-governor and former chief justice of Manitoba.

The question is engaging the whole of Sir James' energies at the present time and is taking him on a tour of all the Canadian provinces. He conferred in Toronto with the members of the law society on the Ontario aspect of the proposal.

The question of discipline has been recognized by the legal profession for some time as one which should be faced but it has been left for Sir James Alkins, since his retirement from the presidency of the Canadian Bar Association to endeavor to work it out.

At the present time the only penalty which can be evoked against a lawyer who is guilty of unprofessional conduct is to have him kicked from the roll of the Bar. This penalty is so drastic since it deprives the offender of his livelihood as to be rarely invoked.

WOULD DISPOSE OF TWO ROADS IN PEACE RIVER

Montreal.—Possibilities of increased development in the Peace River District, and prospective property to be derived by new settlers in that area, were pointed out by Hon. John E. Brownlie, K.C., Premier of Alberta, in an interview.

Premier Brownlie explained he had come to Montreal for discussion on the Alberta railway question with Sir Henry Thornton, president of the Canadian National, and W. A. Paterson, president of the Canadian Pacific Railway. The provincial government operated two roads, the Edmonton-Dunvegan and British Columbia Railway, and the Alberta and Great Western Railways, both of which, in the Premier's opinion, should be incorporated in one of the two great trans-continental systems. He was prepared to discuss terms for the disposal of the two government-owned lines, being convinced both the province and the absorbing company will derive benefits from the amalgamation.

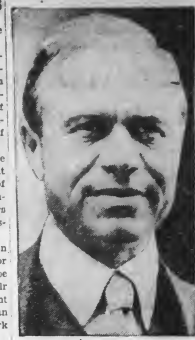

The Edmonton-Dunvegan and British Columbia Railway serves the Peace River district, which Mr. Brownlie explained was one of the most fertile portions of Alberta. The area was being opened up rapidly, and had a tremendous future as a grain producing country. In order that it might be developed to the greatest advantage, the provincial government thought the railway should be extended through one of the Rocky Mountain passes to obtain a direct outlet on the Pacific Coast for its products. As a provincially-owned concern, the Premier said this could not be undertaken by his government, as it would encroach on the territory of another province.

At the present time there were 206,000 acres under cultivation in the Peace River District, between eight and nine million bushels of wheat being harvested in 1927 from this area, and it was estimated 12,000,000 acres could be placed under cultivation in that domain.

World Grain Records Created by C.P.R.

World records in grain marketing during the peak of the movement were created this fall by the Canadian Pacific Railway. A recent statement issued by A. Hutton, General Superintendent of Transportation of the company, shows that in the ten working days, from October 20-31, 40,474,000 bushels of grain were marketed.

November 24, saw the greatest single day's marketing with 5,100,000 bushels, and 2,266 cars loaded October 25. These figures have never been even closely approached in the history of transportation. The total amount of grain handled between August 1 and the end of navigation on the Great

Lord Beaverbrook, who was recently bereaved by the death of his wife, has returned to England after a short visit here.

Discuss Canadian Navy

London Paper Comments On Canadian Government Proposals

London.—Returning to its discussion of the Canadian Government's proposal to replace its two present light cruisers, the Patriot and Patrician, with new ships, The Weekly Tribune states a statement which is described as "officially inspired from Ottawa." The statement says the first of the new ships will be laid down immediately the Canadian Parliament approves the necessary estimate. It adds that the Patriotic is still serviceable, so the second destroyer will be ordered for later delivery, thus spreading the total outlay over two years.

The Weekly says: "A point to which the message makes no reference is that the Canadian Department of Defence has asked the British Government to loan two destroyers to replace the old ones, while the proposed vessels are under construction. It confesses that if a Canadian ship should sink, they would warships at all so long as you can borrow them?"

Wheat Exports Drop

Increase In Stocks Of Grain In Canada Is Shown

Fort William, Ont.—A decided decrease in the export demand for Canadian grain, with a consequent increase in the stocks all over the country, is reported by E. A. Urell, statistician to the Board of Grain Commissioners.

Export of the new Argentine crop is, under way, and Mr. Urell points out that this may account for the falling off of export demand for Canadian wheat.

More Bodies Recovered

Provincially, More Than Fifteen bodies of members of the crew of the sunken submarine S-4 were recovered by eight divers who descended and thoroughly examined the submarine's battery compartment. This brought the total to 32.

Hon. Peter Hoeman Appointed

Ottawa.—Hon. Peter Heenan, minister of labor, has been appointed a member of the advisory council of the American Association for Labor Legislation. Hon. Mr. Heenan recently visited Washington and attended the annual session of this body.

Members of the advisory council of the American Association for Labor Legislation.

World Grain Records Created by C.P.R.

Lakes were 172,619,000 bushels in 1926-27. It is estimated to the end of December approximately 180,000,000 bushels were moved over C.P.R. lines.

Growth of the export business in Vancouver in grain is shown by the fact that in the period mentioned above, 2,420 cars of grain were loaded by the Canadian Pacific to that port against 7,200 cars in the same period of 1926. Similar growth is shown in the opposite end of the Dominion. In the winter months of 1926-27, there were moved 13,584,000 bushels through the port of West. In 1926-27, there were moved 19,781,000 bushels during the same period of 1926-27.

Will Receive Canadians

Party Of Farmers From Dominion Will Be Received By The King

At Buckingham Palace

Montreal.—That His Majesty the King will receive the Canadian farmers' party now on tour, was the effect of a cable received at headquarters of the Canadian National Railway. This group of farmers from all provinces is now on the high seas. It was organized through the Department of Agriculture and Agricultr of the National System, with the co-operation of the White Star Line, to make a survey of agricultural marketing systems in Great Britain and Denmark. H.R.H. the Prince of Wales had previously announced his intention of receiving the Canadians who will also have the benefit of meeting technical advisors of the Ministry of Agriculture.

His Majesty will receive the Canadian party at Buckingham Palace at 3 o'clock on the afternoon of Saturday, February 4.

Search May Be Renewed

Friends Of Mrs. Grayson Offer To Furnish Two Planes

St. John, Nfld.—Inquiries have been received here from New York friends of Mrs. Francis Wilson Grayson, in regard to the possibility of organizing a search for the missing aviator and her three male companions, whose amphibian aeroplane, the Dawn, was lost after taking off from Roosevelt Field, N.Y., for Harbor Grace, December 23.

Friends of Mrs. Grayson, in their message, said that they were prepared to furnish two planes to make a thorough search of the Eastern part of Newfoundland where inhabitants reported they had heard an aeroplane which they believed might have been the Dawn.

Future Of Sheep Industry

Experts Say There Is No Danger That It Can Be Overdone

Edmonton.—That the future of the sheep industry in Canada is assured, that there is no danger that it can be overdone, resulting in overstocking, investments of those who go into it with even modest capital and moderate skill and knowledge were the expressed views of experts and experienced producers who addressed the annual meeting of the Canadian Sheep Breeders' Association here. The speakers included P. S. Freeborn, Dominion livestock commissioner; J. G. Robertson, livestock commissioner of Saskatchewan; and Prof. J. P. Suckville, of the University of Alberta.

New Cosmic Ray Discovered

Has Greater Penetrating Power Than Radium Or X-Ray

Moscow.—Unknown cosmic rays, emanating from interplanetary space, have been discovered in Khokand, middle Asia.

The rays have a penetrating power many times stronger than radium and 200 times stronger than the X-ray.

The source of these cosmic rays has not been discovered and a scientific expedition has been organized on the highest mountain in the Khokand range to study the phenomenon.

WORLD PEACE IS GREAT AIM OF BRITISH PEOPLE

Washington.—Senator Raul Dandurand's words to the League of Nations Assembly in 1925 that "peace is the greatest of British interests," were quoted by Sir Ernie Howard, British ambassador, in an address before the American Engineering Council here.

The Senator's statement that governments would all have to conform to the principle of peace or "their existence would be short-lived indeed," would be unhesitatingly endorsed by the vast majority of British people, Sir Ernie said.

Referring to occasional criticism of Britain for holding back a little as at the time of the rejection, with full approval of the Dominion governments of the Geneva protocol for pacific settlement of international disputes, Sir Ernie said Senator Dandurand had stated there had been a suggestion that the British were not in earnest in these great causes. Nothing could be more foolish and nothing more unjust.

Ambassador Howard concluded: "Believe me, gentlemen, if there is one country in the world with which both from inclination and interest we desire peace, it is the United States of America."

FARMERS DISCUSS MANY PROBLEMS AT CONVENTION

Saskatoon.—Urging the provincial department of highways and municipal councils of the province to make provision for the keeping open of highway and main market roads for vehicular traffic during the winter, delegates to the 21st annual convention of the Agriculture Societies' Association passed a strong resolution on the subject of snowbound roads.

An animated discussion followed the introduction by F. Wright, Lacombe, and Robert Simon, Regina, of the resolution, and many ideas and experiences were advanced and recounted. The delegates all agreed on the principle of the resolution but there was some divided opinion as to whether or not secondary roads should receive the same consideration.

The weed menace in the province was another subject that gave opportunity for discussion and full advantage was taken by the delegates to discuss the problem. By resolution the convention recorded its approval of the short course, to train inspectors, which are held by the department of agriculture of the province and urged municipalities to appoint efficient inspectors to aid in ridding the province of weeds.

The provincial department of agriculture will be asked to provide grants to agricultural societies for the purpose of conducting boys' and girls' grain judging competitions, when held in connection with agricultural societies' activities. A resolution to this effect was introduced by J. D. McFarlane and Mrs. Eady of the Coughton-8th and adopted unanimously by the delegates.

Grants will also be asked for societies to foster farm boys' camps held in connection with exhibitions.

A resolution was brought forward, having to do with the Wheat Pool and reading as follows: "Whereas the operation of the Wheat Pool has been of tremendous benefit to the farmers of the province resulting in orderly marketing, and a greater proportion of the proceeds from the crop being returned to the producer which, in turn, has created a higher standard of living among the producers, resolved that the resolution be presented on record as strongly supporting the said Wheat Pool and urge the desirability of giving every possible assistance to other co-operative marketing enterprises." The resolution was presented by F. Wright and J. E. McFarlane, both of North Battleford, and carried amid applause.

Proposed Campaign Of British Farmers

Plan To Support Independent Agricultr Candidates In Election

London.—A proposal for the farmers of Great Britain to support independent agricultural candidates in the next general election will be considered at the annual meeting of the Farmers' Union in connection with this proposal the following planks in the farmers' platform have been suggested:

Abolition of local taxes on agricultural lands and farm buildings, adequate marking of imported agricultural produce, prohibition of imported condensed skimmed milk and a duty on imported dairy and fruit.

Will Take No Action

Washington.—John S. DeForest, weather bureau paymaster, contemplates no action against Henry A. Howard, 14-year-old son of Sir Ernie Howard, British ambassador, who was driver of the embassy automobile which struck and severely injured his daughter, Beatrice May DeForest, 12 years old. "We are entirely satisfied," DeForest said in a statement.

Banishing His Enemies

London.—Russian dispatches to The Daily Mail from Riga, Latvia, say that semi-official information there is that Joseph Stalin, secretary-general of the Communist party, has disposed of his political enemies by giving some of his enemies' estates in Estonia, Vilages and others by summary banishment to the Caucasus, Russian Turkestan, and even distant Siberia cities.

Museum Was Flooded

London.—Sir Arthur Conan Doyle's psychic museum in Victoria Street was among the buildings invaded by the waters of the Thames. The museum was flooded to the depth of four feet with considerable damage to exhibits, some of which are unique and of great value. The early days of spiritualism.

Eastern Star Chapter Installation of Officers

Ceremony Ably Conducted by
Representatives of Grand
Chapter on Thursday
Last

The installation of officers of Mhierva Chapter, No. 41, O. E. S. was held last Thursday evening, under installing Officer Marjorie J. McLeod, Grand Marithea of the Grand Chapter of Alberta, assisted by Sister Leona Olive, acting grand marshal, and Sister Susan Beveridge, acting grand chaplain. Bro. R. Evans officiated in the ceremony as acting grand secretary, and Sister Powell as grand organizer.

Following the installation ceremony, which was conducted in a very pleasing manner, lunch was served and a social hour spent.

The officers for the ensuing year are as follows:

Worthy Matron - Sister Sadie McDonald
Worthy Patron - Bro. Allen J. Brown
Associate Matron - Sister Janet Coda
Secretary - Sister Hannah E. Gate
Treasurer - Mary B. Thomas
Conductress - Helen Emmerson
Asst. Conductress - Elizabeth Short
Aid - Mary M. Patterson
Rush - Catherine Garner
Editor - Elizabeth
Marchia - Janet Jackson
Warder - Kate Johnston
Sentinel - Bro. Maurice W. Cooke
Chaplain - Sister Catherine Dickson
Marshal - Margaret Gillis
Organist - Susan Powell

The United Church

The congregational meeting of the United Church was held on Monday evening of this week in the clubrooms of the church. After worship the reports of the various organizations were read. These showed the work of the church to be in a healthy and promising condition.

After removals are accounted for a returns show an increase of fifteen in communicant membership. There was also a noticeable increase of givings. In spite of extra necessary outlay during the year all accounts were met. There are practically no changes in the church boards.

Very cordial votes of thanks were passed to the Ladies Aid who are a real asset to the church. The year's work in their department established a record. The organists were also remembered. The value of their services is fully realized. Serving year after year without remuneration as they do, their contribution is of real worth.

The Women's Missionary Society as usual met their obligations in full and a little to spare. This society is not only the only one in the Pass, but among the best in the Lethbridge Presbytery.

Red Cross Wants Information, Re The Blind in Alberta

A request has been received from the Red Cross Society, 408 Civic Building, Edmonton, that we obtain for them the names and postal addresses of all those in our district who have the misfortune to be blind.

The statistics thus obtained are for the use of the Society of the blind, who hope to get in touch with all the blind people in the province. We shall be very glad to co-operate with both the Red Cross and the Society for the Blind, and trust that our readers will make an effort to do their part also.

The Red Cross asks that anyone knowing the name of a blind man, woman or child living in Alberta (not ex soldiers) should report the same to their headquarters at 408 Civic Building, Edmonton.

Scottish Capital for Western Canada

That heavy investments are being made in Western Canada by the Standard Life Assurance Co. of Edinburgh, is stated by Wm. MacKenzie, western branch manager of this firm at Winnipeg who visited Alberta agencies during the past week. Mr. MacKenzie states that some \$6,000,000 will be available during the coming year for investments in the prairie provinces and British Columbia.

French Canada

Professor E. Corbet of the Dept. of Extension of the University of Alberta, will give an illustrated lecture on Thursday evening, Jan. 26. His subject will be "Scenes From French Canadian Life," and will be profusely illustrated by lantern slides.

In addition to the pictures Prof. Corbet will give readings from the poems of Dr. Drummond. These readings are given in the style of the habitat and are always well received.

The lecturer is in great demand as a speaker before clubs of all kinds and at various public gatherings, and his interpretation of Drummond's works is highly regarded everywhere.

The lecture will be given in the United Church. There is no charge for admission as it is expected that the free-will offering will meet the modest expenses of the lecture. The public are cordially invited.

Did You Ever Stop to Think

(By Edson R. Waite)
Fred K. Owen, editor of the Portland (Maine) Express says:

"That the person who buys at home not only supplies his needs but contributes to the general prosperity of the community in which he lives."

One who serves his home town or city serves himself, for it is almost invariably true that as the community thrives so does every member thereof.

A part of the cash that goes into the till of the local merchant goes right out again into the community. It is used with which to pay wages to residents thereof, to contribute to taxes and to support local institutions.

The money that you take to the big town to spend can never be diverted into any of these channels. As far as the home town is concerned, it is a total loss.

Hints for Curlers

Lends: Don't fail to get the broom. A rock through the house is wasted. A rock hogged or just over the hog is wasted. Get the broom and get the weight. You'll seldom be asked to play more than draw weight. Play to stay in the house. Rocks count there and nowhere else.

Seconds: Don't fail to get the broom. Don't try to throw a "run" when you are asked to take out a rock. Follow every rock but your own all the way. Watch each rock for weight and use your own judgment if you think it is slow be ready to weep or stop sweeping when called upon.

"BAKE-RITE"
flour
RUSHTON'S CASH GROCERY

*"Everybody likes
home made bread"*

"I have tried your 'BAKE-RITE' flour, baking a large batch of bread, a pan of biscuits and a cake, and I found it very satisfactory indeed.

"I have tried every brand of flour on the market and they are not to be compared with 'BAKE-RITE'.

"It was the best bread we have had in the house since before the war. It is not waxy and gluey in the kneading. I found it did not stick to my hands like ordinary flour.

"I must say I was very pleased with 'BAKE-RITE'.

Personal and Local

Saturday only at the Palace Theatre, Lon Chaney, the man of a thousand faces, in "Mocking."

The Bellevue Blues and the Coleman Shamrocks (ladies teams) will battle for supremacy this evening at 7:30 in Coleman rink. Turn out and give the girls your support.

Coleman was represented at the annual gathering of Al Ashar Temple, Nobles of the Mystic Shrine, Calgary, by A. M. Morrison and C. W. McKinnon.

Mrs. A. M. Morrison is visiting friends in Calgary this week, and with Mr. Morrison will attend the Shriners ball at the Palliser this evening.

The annual meeting of parishioners of St. Alban's was held on Monday evening, when wardens and vestrymen were elected for the ensuing year. A full report will appear in next week's issue.

Mrs. Geo. H. Snod has been a patient in Edmonton hospital for the past two weeks, and has been in a serious condition. Mr. Snod has been with her for over a week and no report as to her progress has been received since Saturday.

The Women's Institute will meet at the home of Mrs. C. S. Oumette on Tues. Jan. 24, at 7:30 p.m. There will be a demonstration, and new members will be welcomed. This is the first meeting this year, and a good attendance is looked for.

Prize winners at the Rebekah social last Saturday evening were Mrs. R. Morris and Mrs. S. Milley (first and consolation) Alex. Dunlop and Harry Nincent (gentle first and consolation) Mrs. J. Muir and Alex. Dunlop winning the travelling prizes.

The various organizations of the United church wish to express their appreciation of the courtesy and generosity of the local Press. Under the new management as well as the old the columns of The Coleman Journal are always open in the interests of the church. This is very much appreciated.

On Tuesday evening a joint installation of I.O.O.F. and Rebekah lodges was held in Blairmore. Bro. W. J. Burns, D.D.G.M., and Sister J. Jackson, D.D.P., being the installing District Deputy's. About 25 Oddfellows and Rebekahs from Coleman enjoyed the impressive ceremony after which a social evening was spent.

Captain and Mrs. Hind of the Salvation Army left here on Tuesday for Calgary, and from there will proceed to the Congress of the S. A. to be held in Vancouver Jan. 20-24. At this Congress officers from Alberta, British Columbia and Alaska will gather, and Commissioner and Mrs. Rich and staff officers from the headquarters in Winnipeg will give addresses. The services will be held as usual at the local citadel. Mr. Williams of Coleman will take the evening services.
